IMPACT: State

Summary of Legislation: This bill authorizes the manager of a license branch to determine whether to collect a pull service charge for a special numbered motor vehicle registration plate under certain circumstances.

Effective Date: July 1, 2004.

Explanation of State Expenditures:

Explanation of State Revenues: The pull service charge is \$30. This is the charge the Bureau of Motor Vehicles Commission (BMVC) requires for a requested low-numbered license plate or a special number license plates. The revenue from this charge is deposited into the State License Branch Fund, which supports the state's 168 license branches. In CY 2002, there were 16,011 plates subject to the \$30 pull service charge, with the revenue from the pull service charge amounting to \$480,330. This proposal will result in a reduction of revenue for the State License Branch Fund. The specific amount will depend upon the number of instances whereby the manager of a license branch determines to not collect a pull service charge for a special numbered license plate or plates.
